Instructions

When you get there:

We will have an area where all Gem Cloggers competitors will meet. If you don't see one of us in the hall or auditorium please look for us in the dressing rooms.

Pick up your numbers for individual events and duets. There will be a table either just inside or just outside of the auditorium doors. I will have the numbers for your team dances.

Go back to the dressing rooms, make sure you are ready to go- hair, make-up, costumes pinned (this is a MUST). Stay with your team parent unless they give you permission to go somewhere. You need to be ready to practice or line-up as soon as you are told.

This is a small competition and once things get going it will move very quickly. The tight schedule may not allow for costume changes for all individual events. You may need to wear your team costume or have your costume right off stage.
